## #TeamUHD 2022 NHS National Staff Survey

We are **caring** **one team** **listening to understand** **open and honest** **always improving** **inclusive**

# Staff Survey – National Benchmark report

We are **caring** **one team** **listening to understand** **open and honest** **always improving** **inclusive**

# Staff Survey – National Benchmark report – green shoots!

We are **caring** **one team** **listening to understand** **open and honest** **always improving** **inclusive**

And the Winner is...

*Ante Natal Team*

21% completion rate in 2021 – 87% completion rate in 2022

We are **caring** **one team** **listening to understand** **open and honest** **always improving** **inclusive**

# Staff Survey – Positive outcomes from the Staff Survey

- 127 teams picked randomly and received bi-weekly email with a different focus and update on completion rates
- Emails sent with posters for wards/dept to display
- Emails sent to ward leads, deputy leads and admin support i.e. ward clerks
- For those areas with a slow improvement, senior staff copied into the emails i.e. matron for wards
- Enabled positive conversation with leads and able to iron out any issues i.e. people not receiving a survey

| Staff Survey 2022 Target Wards and Departments |  |   |   |               | Higher response rate than 2021 less than 11                                     | Same response rate as 2021                            | Less responses than 2021 | Higher response rate than 2021 and more than 11                                  | More than 11 responses                                | New team 2022 less than 11 |  |              |

# Staff Survey – Action – Manager e-learning module

We are  
#TeamUHD

**NHS**  
University Hospitals Dorset  
NHS Foundation Trust

## Welcome

This course is delivered in 4 modules:

- Module 1 – Overview of the NHS National Staff Survey
- Module 2 – Engaging your Team
- Module 3 – Reviewing your Results
- Module 4 – Action Planning for Improvement

Once you have completed the e-learning, you will have the opportunity to attend a Staff Survey drop-in session to ask any questions that you may have and to chat through your team's action plan with fellow managers. Dates for these sessions are available on the Intranet.

We are  
#TeamUHD

**NHS**  
University Hospitals Dorset  
NHS Foundation Trust

## Supporting your team in speaking up

Not all staff will choose to feedback on their experience at work through the Survey, but it is important that, should they wish, they know how else they can speak up or raise concerns.

Take some time to reflect...

As a manager, how confident do you feel in supporting your team member to do this?

26 of 60

We are  
#TeamUHD

**NHS**  
University Hospitals Dorset  
NHS Foundation Trust

## Data, data, data

When reviewing your team's results, it can be helpful to look at other data to draw comparisons between what you see.

For example, data on sickness, retention, vacancies, and appraisals can offer valuable insights and provide a bigger picture.

It is when you look at additional pieces of information that you uncover patterns, trends, or anomalies.

**E-learning module going live in March 2023 – advertised in The Brief and staff bulletins February/March 2023**

**Line Managers have the departmental knowledge to understand any factors that may have contributed to their team's survey results – which may have created a special cause variation i.e. team undergoing consultation during the survey period, team relocating to another hospital site. Action plans are best written by the people who understand their own data and can facilitate improvements where they work i.e. the whole team. Managers can explore the root cause of any issues**

**We are** caring one team listening to understand open and honest always improving inclusive

# Staff Survey – Action - Communication

451 team leaders are being emailed with the UHD results and their local team report (151) with an action plan template

It is important that we communicate improvements throughout the year and link them directly to the survey so that staff can see that speaking up makes a difference

Work is already underway on a number of issues identified in the survey results:

- **Discrimination:** Implement an anti racism statement at UHD for staff and patients/visitors with a comms campaign
- **Feeling valued and appreciated:** new UHD awards, introduction of thank you app
- **Involvement and making decisions:** introduction of Patient First

Monthly article in the Brief, March to September, highlighting improvements at Trust and team level

Introduce targeted approach from staff survey to quarterly pulse survey to increase staff engagement

# Staff Survey – Action - Proposal for 2023 – Culture Programme

To improve engagement with the survey and to improve staff engagement in a holistic way, we are proposing a new staff engagement programme which would be facilitated by the OD team in conjunction with the UHD Culture Champions and UHD senior leaders.

Using improvement methodology, we will concentrate on improving engagement with an initial 30 UHD wards and departments. We will have measurable results after the 12 month programme which will enable us to analyse the results, learn what has made a difference and roll the programme out wider in the organisation.

We will recruit a new cohort of Culture Champions. The champions will work in pairs and each pair will be allocated to two UHD wards. The 30 wards will be a mix across Poole, RBH and Christchurch and will be chosen from the 2022 Staff Survey – a mix of engaged wards and those that do not normally participate. We would like the champions to be supported by a team of 3 senior leaders from

- the Board of Directors
- the Trust Management Group and
- Care Group management teams

# Staff Survey – Action - Proposal for 2023 – Culture Programme

Each ward will have an engagement team of 5 people who are committed to visiting them on a regular basis. This will improve visibility of leaders and improve communication. There needs to be a clear commitment from leaders to take part in this programme for the duration.

Each month will have an area of focus (based on the NHS Staff Survey and People Promise) Detailed programme to be agreed but will include topics such as staff health and wellbeing, bullying and harassment, inclusion etc. Each ward will be visited one hour (lunchtime) per week by the champions, with the senior leaders bi-weekly. Each ward will have an information notice board and post box in their rest areas so ward staff can share their thoughts and ideas. The engagement team will build relationships with the ward sister/charge nurse and all members of the ward team with regular face to face contact, enabling two way conversations about the monthly topic. Ward staff will be able to discuss any issues they may be experiencing, having senior leaders as part of the conversations, issues can be escalated and dealt with in a timely manner.

The Culture Champions will have an all day workshop at the start of each month where the monthly topic will be discussed. Champions will be given development opportunities such as listening skills, difficult conversations, influencing, coaching skills. Each month will include analysis of the previous month's activity, sharing good practice, ideas and any issues. We would like senior leader involvement in these workshops.

# ➤ Proposal for 2023 – Culture Programme – Advantages of this approach

- Increase senior leader visibility – in response to comments from all staff briefings ‘Management to come and see what it is like on the shop floor’
- Building stable relationships with those who actually do the work and create value
- Listening to understand - identifying problems and taking actions for achieving continuous improvement much faster
- Clearly communicating goals and objectives leading to increased employee engagement
- Identifying gaps in staff knowledge about opportunities and support available to them
- Sharing key information with teams who may not regularly access emails and the intranet i.e. Patient First programme
- Increase in staff engagement and completion rates for the Staff Survey and People Pulse Quarterly Survey
- Increase in team Staff Survey scores
- Personal development for culture champion roles – including improvement techniques ‘Gemba’ and influencing skills
- Positive communication to the wider organisation about ‘action being taken’
- Can be rolled out to wider organisation/more teams

**We are** caring one team listening to understand open and honest always improving inclusive
