

# Attending your appointment

In order to protect patients, staff, and the public, and to adhere to effective social distancing rules, we are introducing new arrangements for outpatient appointments. Please read the information below carefully.

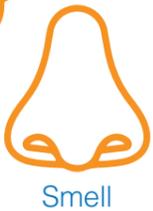

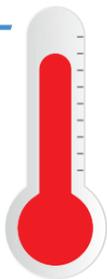

## Before attending your appointment

Please answer the following questions:

Do you have any **new** symptoms of a cough?

Do you have a fever/high temperature?

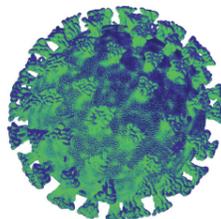

Do you have a change or loss of taste and/or smell?

Do you have any **new** symptoms of shortness of breath?

Have you been identified as a contact of confirmed Covid-19 case via the formal track and trace route in the past 14 days?

## Attending your appointment

If you have answered 'NO' to all of the questions, you may attend your appointment.

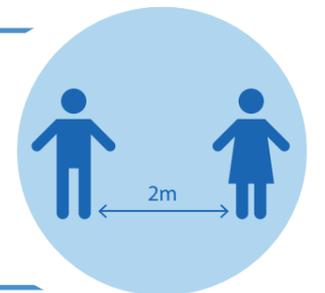

Please attend appointments alone where possible

If you arrive early, please wait in your car

Please wear a face covering while here, unless advised to remove it by your clinician

Keep 2 metres apart and follow the social distancing signs around the hospital

Wash your hands frequently

If you answered yes to any of the questions - even if you have been fully vaccinated - please do not enter the department. This is to ensure we are taking all steps to protect all our patients and staff. Please call the number on your letter and we will happily rebook your appointment for you.

We will be wearing personal protective equipment in the hospital.  
This is for everyone's safety.
