## One of the most common Frauds committed by staff in the NHS is Payroll Timesheets

This financial year, we have investigated 38 Payroll Timesheets cases across our client base.

We see a few variations of manipulating Timesheets case by case. If you have concerns surrounding members of staff that appear to always obtain high value shifts, or you notice that names appear and disappear on the rota or anything else that seems off, then please do get in touch. **Your report will always be in confidence.**
