Southampton
Freight Upgrade

Line Closures

Affecting all trains
via Southampton

Sat 13 – Fri 19 February 2021
and Sat 30 & Sun 31 January

What is the Southampton Freight Upgrade?

We're making changes to the railway around Southampton to accommodate longer freight trains, unlocking more capacity at one of the busiest parts of the UK's freight network.

When we're finished we'll be able to transport more freight by rail, taking lorries off the roads around Southampton and cutting down on greenhouse gas emissions.

We'll also incrementally unlock more capacity for rail services across the Southampton area.

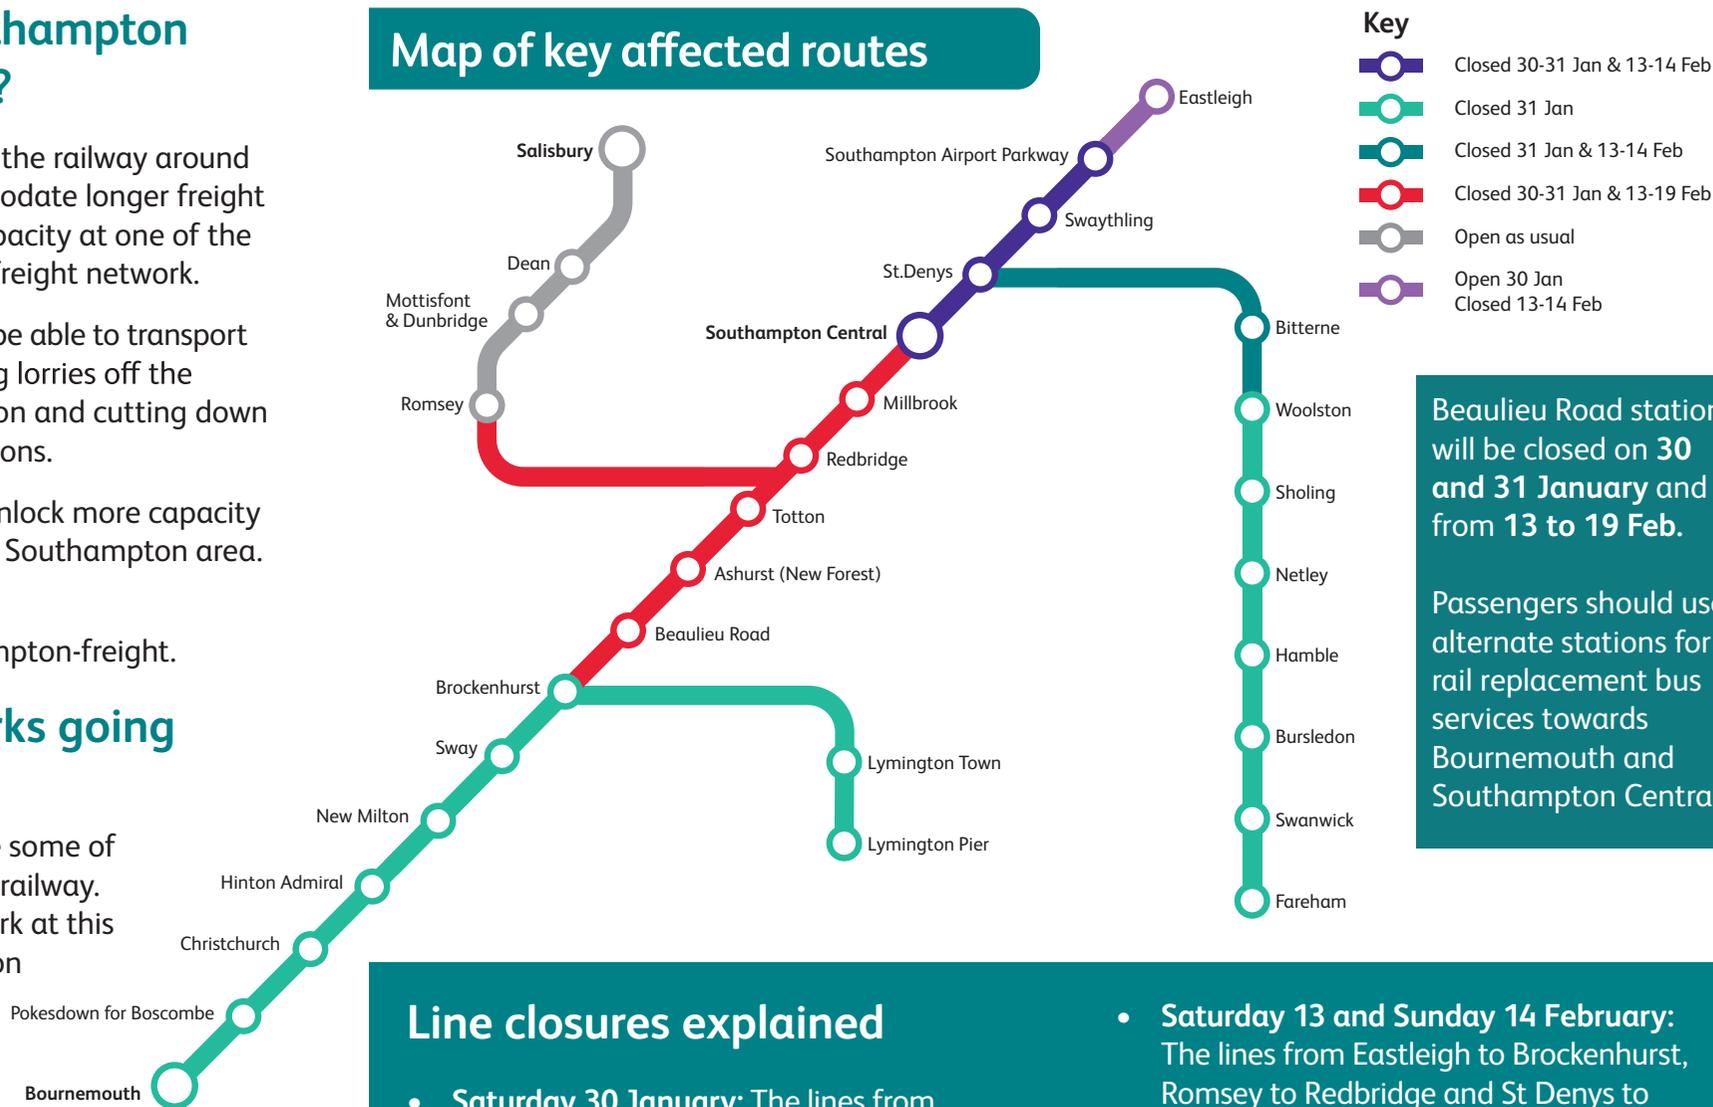

You can find out more at networkrail.co.uk/southampton-freight.

Why are the works going ahead now?

January and February are some of the quietest times on the railway. We're carrying out our work at this time to minimise disruption for our passengers.
