# UHD PAS

# Care groups and operations UPDATE 30 March 2022

**By 17 May we will have a fully-shared version of eCaMIS – UHD PAS – in operation in our hospitals, replacing the current separate systems**

Since last week…

**100% of outpatient clinics are now built in UHD PAS**

**All theatre codes now built in UHD PAS**

**Did you know? UHD PAS will mean easier transfers between wards**

## Medical secretaries

- Be a buddy: RBCH secretaries – can you support a Poole colleague by helping to answer queries on using the Med Sec functions in UHD PAS around go live on 17 May? If you can help, please contact the team at singlepasprog@uhd.nhs.uk

**Can I log into the UHD PAS and Poole e-CaMIS at the same time?**

- Yes. If you wish to be logged into UHD PAS and Poole e-CaMIS at the same time so that you can switch between the two, log into 'PHT Live' first with your Poole log-in and then log into the 'RBH Live' environment with your UHD PAS log-in to enable access to both.
- The SOP for deleting letters from eCaMIS will be available on the intranet shortly.

## Ward attenders

- UHD PAS will see the 'Ward Attenders' PAS category, no longer recognised nationally, phased out at Poole. If you use this function and have not already been contacted, please email singlepasprog@uhd.nhs.uk

## EPMA

EPMA management between sites will be streamlined alongside the move to a single PAS. During go-live and for a period afterwards, until medications can be transcribed, some manual (paper-based) management will initially be required. Further details will be shared shortly.

## Virtual printer

- We're working to make the virtual printer online and available – in the meantime please print any letters that are needed locally.

**Find out more |** Visit the UHD PAS section of the intranet for more details and information on each workstream: https://intranet.uhd.nhs.uk/index.php/pas
**Questions, comments, concerns? |** Email singlePASprog@uhd.nhs.uk
