

Epilepsy Awareness Training and Buccal midazolam training

Who is the course for?

This course is intended for any professional working with people who have epilepsy. The first session covers epilepsy awareness to International League against Epilepsy standard (ILAE) followed by a session on buccal midazolam administration for those professionals working with individuals who have been prescribed buccal midazolam as part of their epilepsy emergency care plan.

Course Content

For full details of the course content, please contact us directly. The course meets the ILAE and ESNA standards as outlined here -
