Attending your VICCO appointment WHS

Sometimes you might see your doctor or other person at hospital like a nurse or physiotherapist through a video appointment - using a computer, laptop, tablet or phone. It's just as important as meeting them in person, but much easier!

5040ve

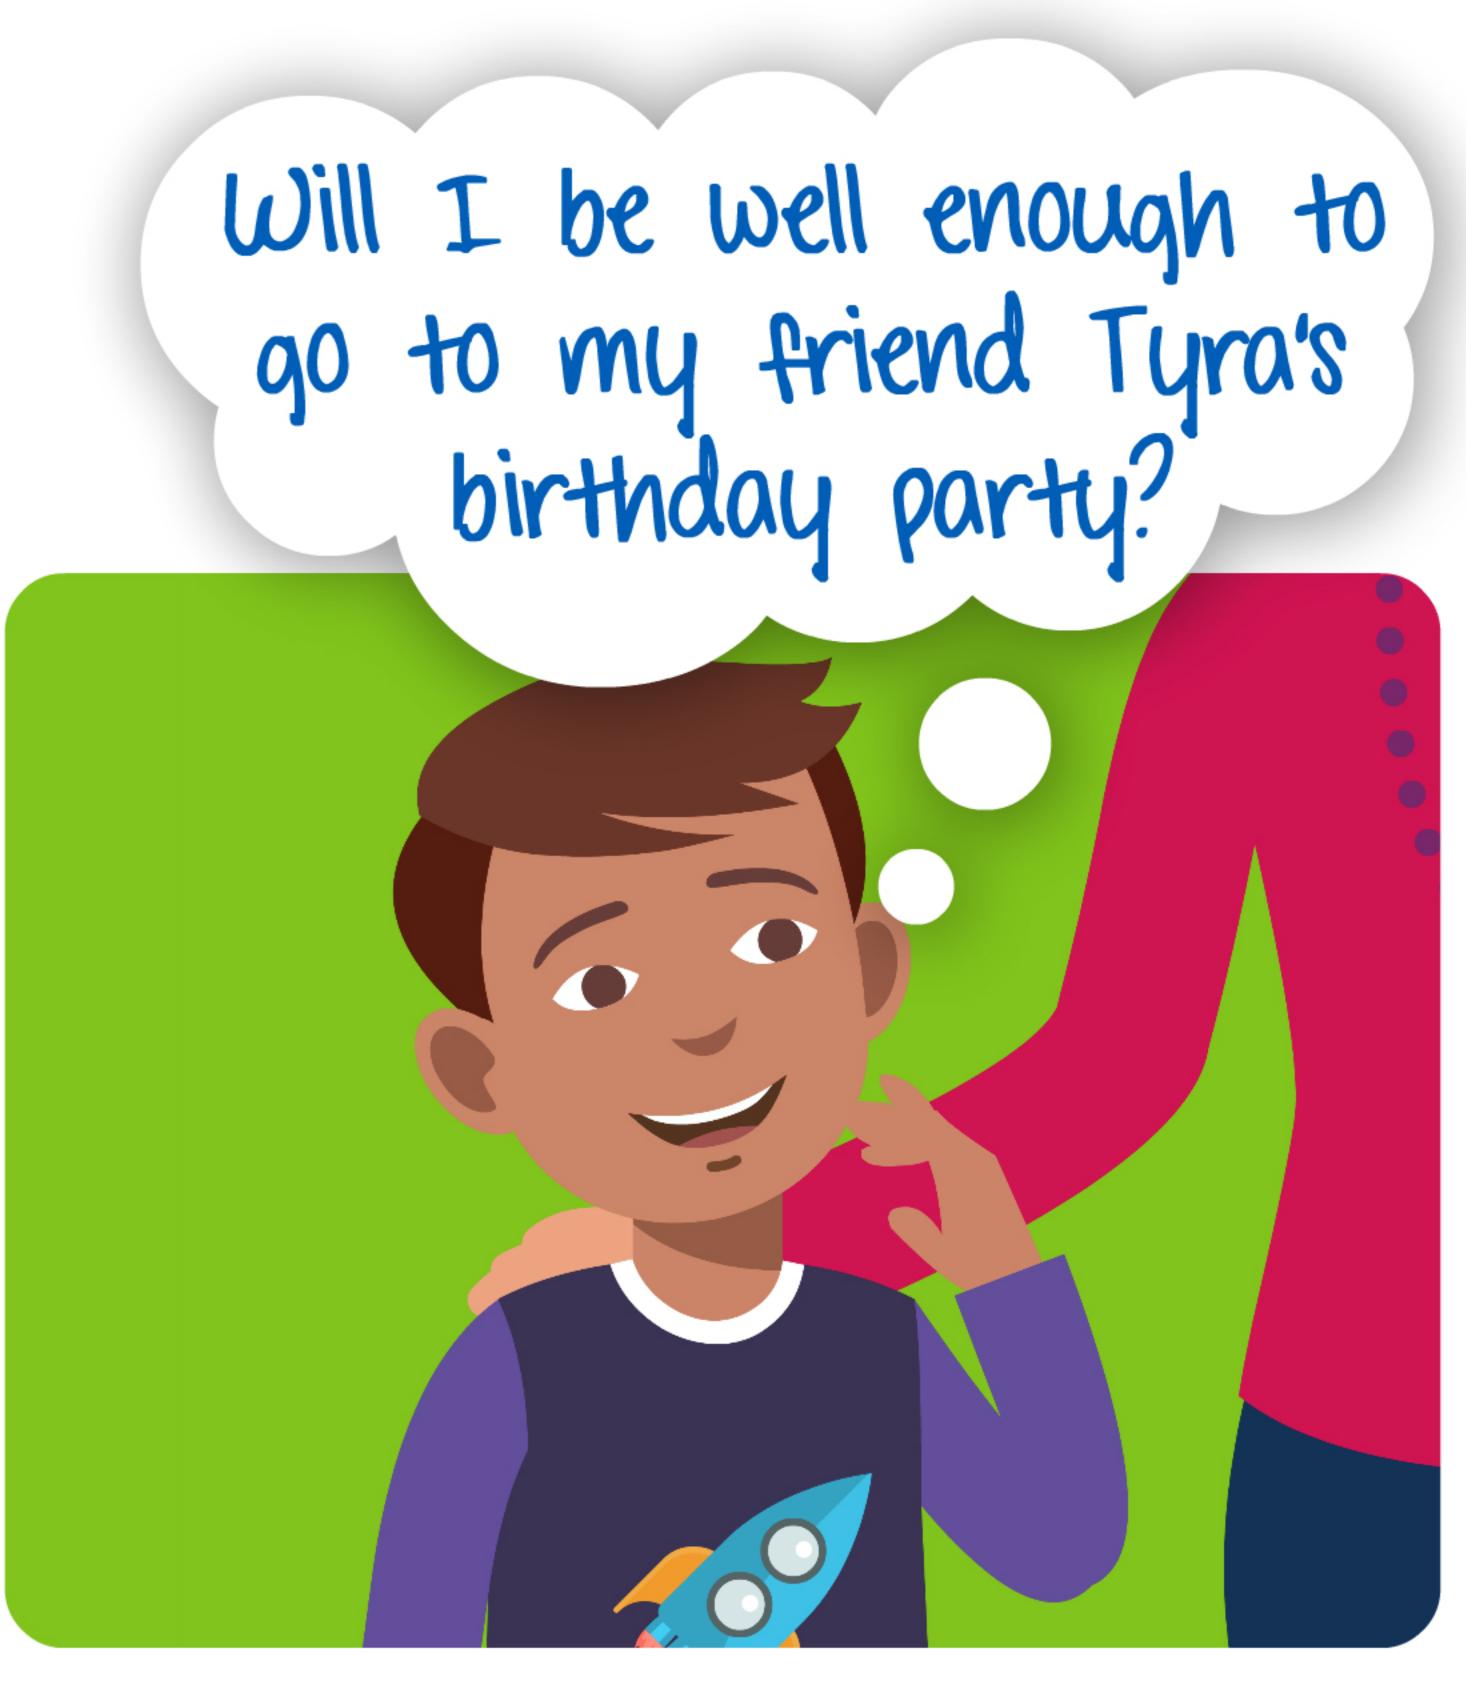

Your appointment will only go ahead if your mum, dad or another grownup is with you.

Get comfy in a place where you can be seen and heard by your doctor.

You can bring a toy along to help you feel more comfortable.

If you have any questions you can ask your doctor.

Stay where your doctor can see you. You can show them things using the camera.

Listen carefully to what the doctor says.

Your video appointment will be a safe private space where we can all work together to try to make you better.

Appointments won't always be by video.

If you find anything difficult, tell your mum or dad, other grownup or the doctor.

If you want to see the doctor in person, tell your mum or dad or another grown-up looking after you and it can be arranged.
